ENVIRONMENTAL AND ENERGY POLICY STATEMENT

Softcat PLC is a leading provider for technology solutions and operates an integrated Environmental and Energy Management System (EEMS) to the ISO 14001:2015 and ISO 50001:2018 international management system standards.

The scope of ISO 14001:2015 certification is

Provision of IT infrastructure and services to the corporate and public sectors.

The scope of ISO 50001:2018 is

The application of an energy management system for the use of energy within occupied premises, off site data centres and company transport for the delivery of IT infrastructure and services to the corporate and public sectors.

Softcat commits to:

- Setting and reviewing environmental and energy objectives and targets
- Ensure information and resources are provided to achieve our environmental and energy objectives and targets
- Protect the environment
- Fulfil our compliance obligations related to environmental management, energy efficiency, use and consumption
- Encourage procurement of energy efficient products and services
- Consider improvement in energy performance leading from design activities
- Continual improvement of our environmental and energy performance and the EEMS

This policy shall be communicated within Softcat, be available to appropriate interested parties and periodically reviewed and updated as necessary.

Richard Wyn Griffith

Managing Director

A handwritten signature in black ink, appearing to read "Richard Wyn Griffith", written over the printed name and title.
